Floors Dry Fast Without Streaks

H₂O 
KILLS 99.9% BACTERIA ONLY WITH TAP WATER

Euroflex Vapour M4S

The Vapour M4S is a powerful and efficient appliance to clean the whole house from floor to ceiling without the use of toxic detergents.

As a floor cleaner it cleans all types of sealed hard floors leaving them quick to dry and streak free. It is safe to use on timber and laminate floorboards.

As a steam cleaner it has multipurpose use and comes with a full range of accessories to clean and sanitise any home surface, including tools for windows and grout cleaning.

ULTRA DRY STEAM TECHNOLOGY

The Euroflex Vapour M4S uses advanced technology for superior clean floors. Its secret is the boiler and the hot plate base, together they ensure powerful heat cuts through tough dirt. Other floor cleaners such as steam mops, use a simple "drip-feed" design that are prone to excessive wetness, streaking and may even damage water sensitive floors.

Features:

Pressurised Steam Stainless Steel Boiler

Frontal Steam Jets

Refresh Carpet

Safe on Wood Floor

Floors Dry Fast

euroflex vapour M4S

Euroflex products are technologically enhanced for superior performance

Boiler Technology

The superior cleaning performance of Vapour M4S comes from its built-in pressurised stainless steel boiler that superheats water until 250°F (120°C) to generate a hotter and drier steam, leaving surfaces hygienically clean and sparkling without dull chemical residues.

Other Boiler Advantages

Longer Life:

The boiler construction eliminates rust, corrosion and calcium build up for a longer product life.

Ready - Made Steam:

Pre-made steam is stored and kept super hot ready for use.

Energy Efficient:

Vapour M4S is thermostatically controlled to save on power costs.

Electronic Steam Release

With the touch of a button, the steam is continuously released with no loss of steam heat for a more effective clean.

NEW Ultra Dry Steam Technology

Vapour M4S' Hot Plate dries out accumulating moisture on the floor pad for a better streak free finish. The Hot Plate also gives extra heat to the floor pad to soften and remove dirt and grime faster than ever before.

Double Steam Jet Technology

The Bottom Jets continually emit steam to clean floor surfaces, while the Front Jets are used "on demand" to clean floor edges.

MULTIFUNCTION STEAM CLEANER

Vapour M4S is equipped with a full range of accessories to clean and sanitise any home surface.
