

Delicate Floor Ultra Dry Steam

The Vapour M2R floor steam cleaner has a modern Italian design that is ideal for washing sealed hard surface floors and refreshing carpets and rugs, without the use of harsh chemical-based cleaners.

The heated steam softens and loosens dirt while the washable microfiber pad lifts the dirt away.

The frontal steam jets gives extra steam power for stubborn dirt or to clean floor edges.

The Moisture Reducing Hot Plate Technology delivers the perfect combination of moisture and heat, while ensuring floors are deep cleaned with a streak free finish.

Its everything you need in a steam floor cleaner and more.

Features:

**Pressurised Steam
Stainless Steel Boiler**

Frontal Steam Jets

Refresh Carpet

Safe on Wood Floor

Floors Dry Fast

 Home, Simplified.

Vapour M2R: Technical Data

Water Capacity	600ml
Power	1200 W
Electrical Cable	7 metres
Usage before refilling	20 mins approx.

Accessories Included

Carpet Sledge
Microfibre Pad

2 x Washable
Microfibre Pads

Parking
Pad

Funnel

Measuring
Cup

Warranty

Vapour M2R Floor Steamer comes with a 2 year manufacturer's warranty.

Floors Dry Fast Without Streaks

euromflex vapour M2R

Euroflex products are technologically enhanced for superior performance

The only floor steam cleaner with:

- Frontal steam jets for extended reach (deep cleans baseboards, nooks and crannies).
- Pressurised stainless steel steam generator for maximum superheated steam power.
- Moisture reducing hot plate technology for perfect moisture while cleaning.

H₂O 
KILLS 99.9% BACTERIA
ONLY WITH TAP WATER

Boiler Technology:

The superior cleaning performance of Vapour M2R comes from its built-in stainless steel boiler that superheats water to generate a hot and drier steam, leaving floors hygienically clean, quick-to-dry and streak free. The steam booster allows the ready-made steam to be released constantly, without any loss of steam pressure during cleaning.

Other Boiler Advantages:

-  Longer Life:
The boiler construction eliminates rust, corrosion and calcium build up for a longer product life.
-  Ready - Made Steam:
Pre-made steam is stored and kept super hot ready for use.
-  Energy Efficient:
Vapour M2R is thermostatically controlled to save on power costs.

Double Steam Jet Technology

The Bottom Jets continually emit steam to clean floor surfaces, while the Front Jets are used "on demand" to clean floor edges or used when extra steam power is needed for stubborn dirt.

NEW Ultra Dry Steam Technology

Vapour M2R's Hot Plate dries out accumulating moisture on the floor pad for a better streak free finish. The Hot Plate also gives extra heat to the floor pad to soften and remove dirt and grime faster than ever before. Heat is a powerful softening agent for dirt and grease.

Steam Booster Technology

Vapour M2R's Steam Booster function ensures that steam is consistently released onto the floor pad with no loss of pressure, avoiding unexpected variability in steam output.
